	Ascent: 750 m		Price: 12 €

Start in front of the Autocamp Ajdovščina by taking the Science-learning Footpath to the Source of the Hubelj river. The path continues to natural attraction, Otliško okno – natural window, where we will stop and take a look at the Vipava valley through it. Nearby is situated the Stone Spiral, which is by the locals called “kamniti polž” (stone snail). It was made by a young architect but the locals have also contributed a lot in creating this special sculpture, which today stands in one of the Karst valleys, distinctive of the region. It is possible to return via the same route or you take the path ‘Šturska pot’ and descend to the Stara baba (old lady), a rock shelf, which is located above Ajdovščina and the village Grivče. From it you can admire a wonderful view over the city and the whole Vipava valley.
